Foreword

Maria Teresa Pisani / Tom Butterly

ABOUT THE TRADE FACILITATION IMPLEMENTATION GUIDE

A TOOL FOR SIMPLIFYING CROSS-BORDER TRADE

Welcome!

Trade facilitation creates a reliable, fast and cost-effective trade environment that benefits all countries and businesses, especially small and medium-sized enterprises (SMEs). It’s a collaborative effort by governments and traders to cut the costs of doing trade, reduce delays at borders, and make public agencies dealing with trade more efficient. Multiple information requests and document formalities are managed better and trade rules made more transparent, whilst procedures are simplified and redundancies eliminated.

HOW THE GUIDE CAN HELP

If you are implementing trade-facilitation reform, whether you come from the public or private sector, the Guide will help you identify, examine and select available solutions and possible paths for your policy objectives. It does so by introducing trade facilitation and its benefits, and the main steps that need to be taken to put it into place. It presents a variety of concepts, standards and recommendations that can simplify trade throughout the international supply chain, and sets out implementation approaches and methodologies. The available instruments for applying the facilitation measures under discussion at the World Trade Organization are also introduced.

A WEB-BASED TOOL

The Guide is a publicly available web-based interactive tool. Through multiple entry points and cross-links you can navigate different areas and instruments — at various levels of information and detail. Navigation paths help you explore the linkages and dependencies between issues and solutions. The Guide therefore gives you a holistic rather than a sectorial or organizational approach.

USING THE TF IMPLEMENTATION GUIDE

The TF Implementation Guide is a collection of self-contained “virtual documents” organized in a structured set of trade-facilitation domains, itineraries, instruments and organizations. These are the entry points to the contents of the Guide, which you can access according to your needs and objectives. A free search tool allows you to find specific information.

COMPLEMENTARY MATERIALS

A Train the Trainers manual and a set of Case Studies on trade-facilitation efforts around the world complement the Guide.

ABOUT THE GUIDE

It was developed by the United Nations Economic Commission for Europe (UNECE), with contributions from its UN Centre for Trade Facilitation and Electronic Business (UN/CEFACT), and financial support from the Swedish International Development Cooperation Agency (Sida). A large team of high-level experts from different technical areas and parts of the world were involved in its preparation. Available at: www.unece.org/trade/tfig

TRAINING

The Trade Facilitation Implementation Guide (TF Implementation Guide) is complemented by a training manual. This manual has been developed for handling workshops based on the contents of the the Guide. It provides Guidelines and tools for a three-day workshop on the Guide. It helps trainers to prepare for their sessions, shows them how to structure the training, and gives pedagogical and didactical Guidelines for achieving the participants’ learning objectives.

TARGET AUDIENCE

The manual is aimed at experts/trainers who will train policy makers and managers, from both the public and private sectors, involved in the conceptualization and implementation of trade facilitation programmes and measures.
LEARNING OBJECTIVES

The manual equips trainers with a set of competencies and tools that allows them to:

- analyse the learning needs of the target audience,
- develop a three-day workshop on the use of the TF Implementation Guide,
- share knowledge and methodologies to facilitate and conduct the workshop, and
- evaluate the learning results achieved by the target audience and to track the impact of the workshop.

CONTENTS OF THE TRAINING MANUAL

The manual contains practical guidelines on how to organize, run and evaluate a workshop on the Guide. A number of tools have been included in the manual:

- a three-day agenda for the workshop,
- a tool for analysis of learning needs,
- a checklist for the trainer,
- a set of power-point presentations that support the different learning activities,
- a set of workshop evaluation tools.

A SPECIFIC LEARNING APPROACH

This manual incorporates a specific learning approach which can be summarized as follows:

PARTICIPATORY AND LEARNER CENTRED

The activities that the trainer facilitates will enable participants to make use of the Guide in their own reform context and effort. The training approach progressively passes initiative and knowledge development from the trainer to the learner. This is achieved in an interactive and participatory way.

CONTEXT BASED AND FLEXIBLE MODULAR DESIGN

Specific learning paths have been developed to discuss key issues and challenges for trade facilitation and to describe relevant tools and solutions. Through these learning paths, participants are given a contextualized approach to the Guide contents, which they can relate to concrete reform scenarios. They are modular. They allow the trainers to build around the learning needs and interests of the particular target audience being trained.

STANDARDS OF EXCELLENCE FOR FUTURE TRADE IMPLEMENTATION FACILITATION TRAINERS

The selected trainer must:

- display good overall thematic knowledge of the different trade facilitation implementation issues, and
- have experience in delivering training workshops for government officials.

In addition, he/she should:

- have good facilitation skills and understand what adult learning is all about,
- respect diversity as a core value in the training process, and
- be able to facilitate group dynamics.

For trainers with limited training and facilitation experience, we recommend additional pedagogical tools that can serve as background information throughout this training manual, see http://training.itcilo.org/delta/compass/player.html

THE TRAINING CYCLE

STAGE 1 Identify the learning needs
STAGE 2 Design the training
STAGE 3 Deliver the training
STAGE 4 Evaluate the training
PHASE 1
BEFORE THE WORKSHOP
Before the workshop the following questions will be addressed:
- Who should attend this workshop?
- How to assess the learning needs of the target audience?
- How to review the learning objectives and the workshop agenda based on the needs assessment?

1. THE TARGET AUDIENCE

Workshop participants should be policy makers and managers, from both the public and private sectors, involved in the conceptualization and implementation of trade facilitation programmes and measures. It is useful to reflect upon ideal Guidelines for the participant selection that should be based on the ARE IN approach. The participant needs:

A Authority [decision-making and implementation power]
R Resources [allocation of human and financial contributions]
E Expertise [Expertise or Experience, recognized competencies]
I Information or insight [knowledge of subject details]
N Need [directly affected by processes or subject outcomes]

To make a selection of the right participants based on the aforementioned criteria you need to have access to specific data about the participant. We recommend including the following items in the registration form for the training course.

2. ASSESSING THE PARTICIPANTS’ LEARNING NEEDS

Once participants have been identified, it is advisable to obtain more information of their prior knowledge of trade facilitation, and experience with implementing trade facilitation reforms. It is also useful to explore what their specific needs and work related challenges are. This training package provides you with a simple survey option which allows the capture of this information. It is advisable to send this questionnaire to the participants three weeks before the workshop. In this way you can still adjust your training based on the information you can extract from this questionnaire. You can find the learning needs questionnaire in Annex 1.

Groups are usually diverse and heterogeneous if you take all the criteria into account. Diversity is an important element that you need to consider when delivering the training. Different learning styles, nationalities, backgrounds, preferences and educational levels necessitate a need to integrate a diverse training approach that accommodates the different needs.

3. THE LEARNING OBJECTIVES, CURRICULUM AND WORKSHOP AGENDA

These are the following categories of learning objectives that we want to achieve through this workshop:

3.1. INTRODUCTION TO TRADE FACILITATION AND TO ITS GENERIC IMPLEMENTATION APPROACH

- to introduce participants to the trade facilitation principles and benefits,
- to outline the generic approach for implementation of trade facilitation reforms,
- to identify existing TF instruments covered in the Guide and their relevance, and
- to identify intergovernmental organizations that are involved in work related to trade facilitation.

3.2. INTRODUCTION TO THE GUIDE CONCEPT AND STRUCTURE (WHAT IT IS AND HOW IT WORKS)

- to explain what the “TF Implementation Guide” is about and how it differs from existing Guides, and
- to use the Guide and explain its relevance.

3.3. INTRODUCTION TO THE GUIDE CONTENTS (HOW TO USE IT TO ADDRESS SPECIFIC NEEDS AND IN CONTEXT)

- to be familiar with key TF issues, reform objectives and implementation solutions, and
- to translate roadmaps responding to specific TF needs in one’s context.

3.4. TRAINING

- to review how to prepare a training workshop based on the Guide and according to capacity building needs in one’s context,
- to connect with other existing training packages for in-depth capacity building programmes on specific TF issues, and
- to learn how to help other participants to use the TF Implementation Guide.

4. OVERVIEW OF THE CURRICULUM AND LEARNING ACTIVITIES

Based on the learning needs analysis and the specific context of the training, the trainer can select specific modules from the training package. In the following framework, you will find an overview of the different sessions that the trainer can choose from. We have organized them with a specific flow. Depending on the needs, a workshop can take from one to three full days.

<table>
<thead>
<tr>
<th>DAY 1</th>
<th>DAY 2</th>
<th>DAY 3</th>
</tr>
</thead>
<tbody>
<tr>
<td>Session 1</td>
<td>Welcome and Opening Objectives and structure of the TF Guide</td>
<td>Choose the itineraries that are relevant for your specific training</td>

<td>Session 12</td>
</tr>
</tbody>
</table>
5. STRUCTURE OF A LEARNING ACTIVITY

The learning sessions that you will find in this training package are structured into session sheets in the following way:

At the start of each session you will find the following grid:

<table>
<thead>
<tr>
<th>Title of the learning session</th>
<th>Description of the session in one sentence</th>
</tr>
</thead>
<tbody>
<tr>
<td>Objective of the learning session</td>
<td>What will participants be able to do at the end of the session?</td>
</tr>
<tr>
<td>Link with the relevant content section of the TF Implementation Guide</td>
<td>Where do I find the materials in the TF Implementation Guide?</td>
</tr>
<tr>
<td>Learning materials</td>
<td>Which specific training materials do I need for this session?</td>
</tr>
<tr>
<td>Timing</td>
<td>How much time will this session take?</td>
</tr>
</tbody>
</table>

6. IMPORTANT CHECKLISTS FOR THE TRAINER

As a trainer you have plenty of things to prepare before the workshop starts. Therefore it might be handy to consult some important training checklists so you do not forget anything before you enter the training room.

Stationery and materials checklist

Review if you have the following items available in the training room:

- TF Implementation Guide power-point presentations
- Computer, printer and effective speakers (access to)
- Projector and screen (or white wall)
- Paper supplies [white, coloured and large poster], markers/pens [coloured & black], writing pads, notebooks, flip-chart (or Poster) paper
- Stationery (scissors, string, glue, sticky adhesive (‘blu-tac’), hole-puncher)
- Facilitator’s props [clock or watch, bell]
- Name tags
- Photocopier (access to)
- Laptops with on-line access to the TF Guide
- TF workshop agenda
- Evaluation questionnaires

Implementation preparation checklist

<table>
<thead>
<tr>
<th>Prior to implementation</th>
<th>During first session</th>
<th>Throughout the entire workshop</th>
</tr>
</thead>
<tbody>
<tr>
<td>Review materials</td>
<td>Introduce with icebreakers</td>
<td>Remember facilitation roles, tips and challenges</td>
</tr>
<tr>
<td>Share briefing notes with participants</td>
<td>Clarify expectations and learning objectives</td>
<td>Record all the results and document as much as possible</td>
</tr>
<tr>
<td>Confirm roles and responsibilities</td>
<td>Review the agenda and the methodologies</td>
<td>Reflect and wrap-up</td>
</tr>
<tr>
<td></td>
<td>Establish ground rules</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Set up feedback mechanisms</td>
<td></td>
</tr>
</tbody>
</table>
Facilitator’s notes checklist

- **Present/Explain/Make the point**: The trainer will present, explain all the different steps of each session [learning objectives, methodology, presentations]. The trainer is also asked to elaborate his or her points with own examples and experiences.

- **Ask participants**: They are experienced and bring along their own professional contexts. The trainer asks questions on a regular basis to elicit specific examples from the participants.

- **Work in groups**: The trainer gives clear instructions when participants have to divide themselves into working groups. The instructions can be found in the different sessions. It is important to clarify the roles of group members and explain the procedure and objective of the session.

- **Facilitate group feedback**: The trainer asks one group to present their work and the others to add perspectives not already discussed by the first group to spur further thinking and explore the various approaches and perspectives of the different groups, i.e. through comparing the findings of the whole group.

- **Display overhead/projector/power-point**: It is important to use the visual materials in the TF Implementation Guide and the different presentations that are included in the training package. Have them at your disposal at all times.

- **Distribute hand-outs**: The trainer will give each participant a hand-out. Make sure the hand-out is clear, short, readable and to the point.

- **Refer to other material**: The trainer will refer participants to additional reading and resources, i.e. specific sections in the TF Guide, website and additional online resources.

Facilitating workshops is a competency that can be acquired only through extensive experience. We recommend you to read the 100 facilitation tips that can give you practical suggestions on what you need to pay attention to as a future trainer: [http://itcilo.wordpress.com/2010/09/06/100-facilitation-tips/](http://itcilo.wordpress.com/2010/09/06/100-facilitation-tips/)

Room layouts

In the different sessions you will find different room layouts. Below you will see room structures that can be used.
PHASE 2
DURING THE WORKSHOP
SESSION 1: OPENING AND WELCOME

LEARNING OBJECTIVES
- to welcome the participants and officially open the workshop
- to introduce the objectives and the methodology of the workshop
- to explain the objectives and the structure of the TF Guide
- to explore the participants’ needs and expectations

RELEVANT CONTENT SECTIONS OF THE TF GUIDE
About:
- http://tfig.unece.org/about.html
Training:
- http://tfig.unece.org/training.html

TRAINING MATERIAL
- presentation
- agenda hand-out
- yellow and green post-its
- flipchart paper
- pencils and markers

TIMING - 1h 30 min
- Welcome and opening: 30 min
- Breaking the ice: 40 min
- Exploring expectations and contributions: 20 min

METHODOLOGY
WELCOME AND OPENING (30 MIN)
The trainer welcomes the participants and presents the overall structure of the TF Implementation Guide and the main objectives of the workshop. The objectives as stated in the introduction part of the training manual are shared with the participants together with a hand out of the official workshop agenda.
The trainer can use the demo to explain the structure of the Guide:
http://tfig.unece.org/tool-simplifying-crossborder-trade.htm#!prettyPhoto[iframes]/0/
The scope and the structure of the training can be explained by using the following link:
http://tfig.unece.org/training.html

BREAKING THE ICE (40 MIN)
After the official welcome and opening of the course, the trainer sets up an icebreaking session to engage the group dynamics and to introduce the participatory methodology that is characteristic of the entire workshop. Every participant will be asked to fill in the following quadrant on a large flip chart:

<table>
<thead>
<tr>
<th>NAME</th>
</tr>
</thead>
<tbody>
<tr>
<td>Years of TF experience</td>
</tr>
<tr>
<td>Best TF experience</td>
</tr>
</tbody>
</table>

Participants have 10 min to fill in the four quadrants and, once finished, display the quadrant somewhere in the workshop room. The trainer divides the participants in groups of 4 to 5 and gets them to jointly walk from flipchart to flipchart to introduce themselves and converse about some of the TF issues they have pointed out (20 min). While the participants interact, the trainer tries to write down:
- The collective TF experience that is available within the group
- Some ingredients that characterize best trade facilitation implementation experiences
- Some desired elements for the ideal TF Guide

The summary notes of the trainer serve as a basis for a collective debriefing (10 min) and for an ideal bridge to explain the objectives and the structure of the TF Guide.

EXPLORING EXPECTATIONS AND CONTRIBUTIONS (20 MIN)
The trainer presents a summary of the learner needs he or she has obtained from the learning needs survey which was done before the workshop (Phase 1). While he/she presents the main results, every participant receives one yellow and one green post-it. On the yellow post-its the participants can summarize their most important expectation of the upcoming workshop. On the green post-its the participants can summarize what they can contribute to the workshop based on their years of professional experience in TF (see icebreaking). After collecting the expectation and contribution cards, the trainer debriefs and connects the results of this exercise with the different sessions of the agenda and the objectives of the workshop.
SESSION 2: INTRODUCTION TO TRADE FACILITATION

LEARNING OBJECTIVES
- to reach a shared understanding of trade facilitation and its objectives
- to present and apply a generic approach to trade facilitation reforms

RELEVANT SECTIONS OF THE TF GUIDE
Introduction to trade facilitation:

The generic approach to TF implementation:

TRAINING MATERIAL
- presentation
- access to 4 computers/laptops with the electronic TF Guide
- four flip charts
- markers
- paper and pen for each participant
- large post-it notes or coloured paper

TIMING – 2h 00
- Brainstorming about non-tariff trade barriers: 45 min
- Introduction presentation: 30 min
- Plenary discussion: 45 min

METHODOLOGY
BRAINSTORMING ABOUT NON-TARIFF TRADE BARRIERS
The trainer invites the participants to write down what comes to their mind when thinking about steps that need to be taken when importing and exporting goods. While the participants answer this question, the trainer documents the many different steps on a flipchart. The trainer stops the brainstorming exercise once it is clear that there are many different steps for facilitating import and export procedures and that various actions need to be undertaken. The trainer briefly points out the different steps on the one hand (payment, transport, Customs, clearance etc.) and relevant actions and documentary requirements on the other (paying duties, filling out documents, etc.). The purpose of this brainstorming exercise is mainly to raise awareness about the complexity of the trade transactions. After this exercise the trainer starts with the first general introduction presentation which encompasses:

- Why TF?
- The four pillars of TF
- The generic approach to TF implementation
- Identification of possible barriers
- Introduction to the Buy-Ship-Pay (BSP) model

It is important for the trainer not to do the presentation in one run. After each topic it is advisable that the trainer asks the participants questions.

WHY TRADE FACILITATION?
What is trade facilitation about and what are the benefits for its key stakeholders?

FOUR PILLARS OF TRADE FACILITATION
Can they identify practical examples of each of the four pillars (transparency, simplification, harmonization, standardization). What do they mean and how do they help?

THE GENERIC APPROACH TO TRADE FACILITATION IMPLEMENTATION
What experience do participants have with needs assessments and other steps in the generic approach?

IDENTIFICATION OF POSSIBLE BARRIERS
Which barriers can the participants identify based on their own experience?

INTRODUCTION TO THE BSP MODEL
How does this model reduce complexity?
SESSION 3: TRADE FACILITATION DOMAINS

LEARNING OBJECTIVES
- to give an overview of the main trade facilitation domains in the Guide

RELEVANT SECTIONS OF THE TF IMPLEMENTATION GUIDE
- see the different trade facilitation domains: http://tfig.unice.org/domains.html

TRAINING MATERIAL
- presentations of the different trade facilitation domains
- coloured post-it cards
- pencils and markers
- flipcharts
- relevant case stories

TIMING - 2h 00
- Introduction to the session: 10 min
- Group work based upon domain: 50 min
- Presentations of the different group results: 60 min

METHODOLOGY

OVERVIEW OF THE DIFFERENT TRADE FACILITATION DOMAINS
It is important for the trainer to identify beforehand which particular issues and domains are important in the context of a specific group of participants. The following exercise needs to be adapted in relation to this.

The trainer divides the group into 4 smaller groups of 6 – 8 participants and gives every group access to a presentation on a specific domain. The trainer explains that the different business domains offer a supply-chain perspective on trade facilitation.

Group 1: Purchasing and Payment
Group 2: Shipping and Transport
Group 3: Customs and Border Management

Depending on their specific needs, the trainer might also decide to integrate several approaches and methodology domains depending on their relevance to the specific group. For example:

Group 4: Business Process Analysis
Group 5: E-Business Solutions
Group 6: Consultation and Cooperation

Every group gets 50 min to review the presentation about their specific domain and tries to answer the following questions:

- What is the domain about?
- What is the relevance for Trade Facilitation?
- What are the key challenges and does the TF Implementation Guide point out any recommendations or solutions?

One spokesperson of each group has 5 - 10 min to answer these three questions in plenary. After six initial rounds, the entire group should have a good overview of what the different trade facilitation domains are about and more specifically their relevance for trade facilitation.

This session is closely connected with Session 4 as the participants will be asked to explore instruments and organizations based on the domains on which they have been working before.

It’s important that the trainer refers on a regular base to the existing case stories that are integrated in the TF Implementation Guide: http://unece.itcilo.org/case-stories.html

For this particular session, the trainer can refer to the following case stories:

- Business Process Analysis in Cambodia (BPA)
- Customs Modernization in Jordan [Domain: Customs and border management]
- National Trade and Transport Facilitation (NTTF) Committees as effective mechanisms for implementing trade facilitation measures in Pakistan [Domain: Consultation and Cooperation]
- A road towards paperless trade. Senegal’s experience [Domain: e-business]
- Interagency collaboration for Single Window implementation. Thailand’s experience [Domain: Consultation and Cooperation]
SESSION 4: INTRODUCTION TO TRADE FACILITATION INSTRUMENTS AND ORGANIZATIONS

LEARNING OBJECTIVES
- to introduce the participants to existing trade facilitation instruments
- to analyse the different fields of application of the trade facilitation instruments
- to explore the different trade facilitation organizations and their relevance to trade facilitation

RELEVANT SECTIONS OF THE TF IMPLEMENTATION GUIDE
- trade facilitation instruments
  http://tfig.unece.org/instruments.html
- trade facilitation organizations
  http://tfig.unece.org/organizations.html

TRAINING MATERIAL
- presentations
- four laptops with access to the electronic TF Implementation Guide
- four flipcharts
- pencils and markers
- large coloured post-its (two different colours)
- large coloured post-its (two different colours)
- the different logos of the trade facilitation organizations

TIMING - 1h 00
- Analysis of trade facilitation instruments: 30 min
- Analysis of trade facilitation organizations: 30 min

TRADE FACILITATION INSTRUMENTS
Comparative analysis of the instruments

METHODOLOGY

STEP 1: TRADE FACILITATION INSTRUMENTS
The trainer introduces the topic by stressing the importance of trade facilitation instruments. These international instruments or best practices are given to provide additional guidance to participants and serve as a source of inspiration.

After the initial introduction, the trainer divides the groups and has two different options.

Option 1: The division in groups remains the same as in Session 3 and the groups will be invited to explore instruments relating to the domain they have chosen.

Option 2: The division into groups is based on the categories that you will find in the TF Implementation Guide.

Group 1: Conventions:
http://tfig.unece.org/contents/conventions.htm

Group 2: Recommendations and standards:

Group 3: Guidelines and Guides:

Group 4: Compilations, cases and best practices:
http://tfig.unece.org/contents/case-studies.htm

Each group has 30 min to investigate its own category and work out a structured synthesis of what exactly belongs to each category. The trainer should encourage participants to explore the pages for which instruments are relevant. The trainer can give some guiding questions that they can use during this investigation period:

- What kind of instruments do you find in your category?
- How are they structured?
- Why are they useful?

Instruct the groups to identify someone to take notes, and someone to keep time. This will ensure that the activity is recorded and that all the questions are covered within the time limit. The spokesperson for each group has exactly 5 min to explain to the other groups what the category is about, what information it explains and why it is useful.

After the debriefing, the trainer opens the floor to plenary discussion.

STEP 2: TRADE FACILITATION ORGANIZATIONS
The trainer continues the exercise to introduce the part of the manual on organizations. Based on the choice in Step 1, the trainer continues to follow either:
PHASE 2
DURING THE WORKSHOP

**Option 1:** The trainer explores in depth the organizations relating to the chosen domains and instruments based on the general question on what the organizational relevance is for trade facilitation.

**Option 2:** The trainer divides the logos of the organizations among the participants and asks the following two questions:

1. What is the organization known for [focus on main outcomes]? (yellow cards or post-its)
2. Describe the work that the organization does that is relevant to trade facilitation? (green cards or post-its)

The trainer asks the participants to map the logos on a wall, together with the yellow and green cards.

Once the mapping exercise is done, the trainer makes sure the following aspects are covered:

- Descriptions of the trade facilitation organizations are clear [where needed, point them to the TF Implementation Guide where a full description is available].
- The relevance for trade has been clearly explained.
- Where possible, draw connections and lines between trade facilitation organizations to identify organizational connections.

**ITINERARIES**

Itineraries in the TF Implementation Guide respond to a number of frequently asked questions for trade facilitation. Each itinerary is constructed as a roadmap and connects specific contents throughout the Guide. As a trainer, you can make creative use of these itineraries and choose those that are relevant for the context of your training and participants. As a trainer, you can either use the general presentation about the itinerary or use the interactive exercises that you will find in the different sessions here.

**SESSION 5:**
WTO NEGOTIATIONS AND TRADE FACILITATION

**LEARNING OBJECTIVES**

- to understand the scope and context of the of WTO negotiations on trade facilitation
- to become familiar with measures that WTO has proposed in the negotiating text
- to discuss the impact of the negotiations

**RELEVANT SECTIONS OF THE TF IMPLEMENTATION GUIDE**

- WTO negotiations

**FREQUENTLY ASKED QUESTIONS**

- Why is the WTO discussing trade facilitation?
- What measures are proposed in the WTO negotiations?

**TRAINING MATERIAL**

- presentation
- computer on-line access to the Guide
- flipcharts
- markers and pencils
- hand-outs

**TIMING - 1h 30**

- Presentation WTO negotiations: 30 min
- Case study risk management: 45 min
- Review and conclusions: 15 min

**METHODOLOGY**

**STEP 1**

**Introduction and context of the itinerary (30 min).**

The trainer starts the session with a general presentation [cf. Presentation WTO Negotiations, Trade Facilitation] to address the first learning objectives. After clarifying the role of the WTO, the historical process, the reasons for inclusion in the Doha round and the change in trade patterns, the trainer gives out the following handouts:

- Annex D of the negotiations
- GATT Article V: Freedom of transit
- GATT Article VIII: Fees and formalities connected with
import and export

- GATT Article X: Publication and administration of trade regulations
- Table of contents of revised negotiating text
- Table of WTO Trade Facilitation negotiating text and implementing instruments

There are several options now for the trainer to discuss and work on the different handouts:

- Ask the participants to revise the first three paragraphs of the Annex D of the negotiations and let the participants come up with an identification of the objectives.
- Ask the participants to revise the GATT text and let them identify weaknesses in the language used. After this the trainer asks them how they think the proposed measures can improve the GATT articles and what improvements are to be expected in general from them.
- Given the importance of the WTO trade facilitation negotiation text and implementation results, the trainer can ask the participants to go to the itinerary section of the Guide and ask them where this important resource can be retrieved.

STEP 2

Example (case study): Risk Management (45 min)

Participants are asked to go to the toolkit and find the case on Risk Management. The trainer does not give any instructions but reminds the participants that the case can be retrieved under the WTO itinerary section. Through consulting the Guide they need to be able to re-cap:

- What is custom risk management about exactly?
- What is the underlying problem statement? (give examples)
- What are the international instruments relating to this area, how they could guide implementers and why?

The interesting part of this exercise is that it is closely linked with other itineraries (cf. Reducing delays at border crossing, Creating trusted partnerships). The trainer should end this exercise by clarifying the logic of the itinerary, which is basically a roadmap created in the Guide to connect specific content sections with each other.

STEP 3 (15-30 MIN)

The trainer reviews the three main learning objectives of the sessions and asks participants to come up with specific conclusion points under each learning objective.
Option 2
- Introduction: 20 min
- Group discussion: 60 min

METHODOLOGY
For this session the trainer can choose between two different training methodologies. Both training options can be preceded by an introduction on the specific itinerary (cf. presentation itinerary).

OPTION 1
The trainer starts the session with an introduction on why an environment of trust and confidence between the government authorities and the trading community is important (5 min). Once the justification is clear, the trainer can refer to the Guide which incorporates a series of trade facilitation measures. Every participant will receive one card with one particular trade facilitation measure (cf. post clearance audit). The participant has the possibility of discussing his or her trade facilitation measure with a neighbour (10 min). After this introduction, the trainer explains the principal steps towards trusted partnerships (10 min).

Every participant will be invited to classify his or her trade facilitation measures and, in joint collaboration with the trainer, answer the following questions:
- How does your measure help to build trust between the government and the trade community?
- What is the underlying problem that your trade facilitation measure addresses?
- Where can you find more information about the implementation of the selected trade facilitation measure?

During the debriefing of each card, the trainer makes sure the trade facilitation measures are properly understood and where needed gives additional guidance towards the trade facilitation goals (60 min).

OPTION 2
The trainer identifies (in advance) two to three experienced participants and briefs them in advance about the facilitation process. A small circle of chairs will be set up, surrounded by a larger circle. There will be a few more chairs than participants, to facilitate mobility.

The trainer opens the session with the experienced participants in the centre circle, and addresses the learning objectives and methodology of this session. The main objective is to become familiar with a range of trade facilitation measures to create trusted partnerships between traders and government authorities.

The trainer uses the following guiding questions to stimulate the discussion:
- How can Customs and relevant border authorities enter into a partnership?
- What constitutes a partnership between public and private sectors?
- Is a partnership more than just a formal consultation?
- How can a trusted partnership operate with integrity?

Once the trainer has posed one of the above questions, he gives room for the participants to answer these questions based on their own experience. Where possible the trainer intervenes and indicates some potential links with the itinerary section in the Guide. Participants who want to comment or question something can move into the inner circle by occupying an empty chair there. If there is no empty chair, one of the participants of the inner circle needs to leave voluntarily to free up a chair. The discussion continues based on the four questions, with participants frequently entering and leaving the fishbowl. Participants have more than one opportunity to move into the inner circle. The outer circle must always observe silently. The trainer should enforce this principle diligently. It is recommended for one of the participants not to participate in the discussion but to take notes on the entire debate, after which a debriefing can be done with the most important conclusions. This debriefing will be useful for the trainer as well, who can connect again with the Guide.

Optional:
Where possible, the trainer should refer to the relevant case study for this session: "NTTF Committees as effective mechanisms for implementing trade facilitation measures in Pakistan", which can be retrieved from:
SESSION 7: REDUCING BORDER DELAYS

LEARNING OBJECTIVES

- to understand the different causes of delay
- to explore the different procedures that apply at border crossings in a general manner
- to evaluate solutions

RELEVANT SECTIONS OF THE TF IMPLEMENTATION GUIDE

- Reducing delays at border crossings
  [http://tfig.unece.org/contents/itinerary-03-start.html](http://tfig.unece.org/contents/itinerary-03-start.html)

FREQUENTLY ASKED QUESTIONS

- What can be done to reduce delays at border crossings?
- Who should be involved?

TRAINING MATERIAL

- presentation
- case story "Customs modernization in Jordan"
- 3 large flip charts
- one presentation
- large post-its
- markers

TIMING - 2h 00

- Introductory presentation: 20 min
- Causes for border delays: 20 min
- Group discussion: 60 min
- Conclusion: possible solutions: 20 min

METHODOLOGY

The trainer starts with an introductory presentation about the itinerary [cf. presentation Reducing Border Delays] (20 min). After this presentation the trainer asks the participants what the potential causes are for border delays (20 min). The stories and cases from the participants should be classified in the categories that appear in the TF Implementation Guide:

1. Infrastructure limitations and inefficiencies
2. Slow processing for release
3. Opening hours

Stories are mapped out on large post-its and are classified in the three categories on three large flip-charts in front of the class room.

After this initial mapping exercise the trainer divides the participants into three different groups (60 min).

Group 1: Cross border requirements
[http://tfig.unece.org/contents/goods-specific-requirements.htm](http://tfig.unece.org/contents/goods-specific-requirements.htm)

Group 2: Transit

Group 3: Port controls
[http://tfig.unece.org/contents/port-control.htm](http://tfig.unece.org/contents/port-control.htm)

Each group has access to the relevant link of the Guide and tries to come up with summary answers to the following two questions:

- What is your topic about?
- Why is it important for trade facilitation?

Additional guidelines: Try to illustrate your points with concrete cases/examples from your own experience. When possible the trainer can also refer to the case story which is integrated in the TF Implementation Guide: "Customs modernization in Jordan":

One spokesperson per group makes a summary presentation of the answers the group came up with. The trainer provides additional feedback when needed.

The session concludes with an evaluation of possible solutions (25 min). The trainer makes an inventory of the general and more specific solutions that are pointed out in the TF Implementation Guide and illustrates where possible with concrete examples. The trainer can make use of the following link in the Guide:
SESSION 8: RATIONALIZE TRADE DOCUMENTS AND DATA REQUIREMENTS

LEARNING OBJECTIVES
- to get an understanding of what trade documents are about and what they are used for
- to know how to identify redundant and obsolete requirements
- to reduce and harmonize data requirements and documents

RELEVANT SECTIONS OF THE TF IMPLEMENTATION GUIDE
- Rationalize trade docs and data requirements
  http://tfig.uneca.org/contents/itinerary-05-start.html

FREQUENTLY ASKED QUESTIONS
- What are trade documents and what are they used for?
- How do you identify obsolete and redundant requirements?
- How do you reduce and harmonize data requirements and documents?

TRAINING MATERIAL
- presentation
- case study: BPA in Cambodia
- 4 large flip-charts or sheets of brown paper
- cards
- pencils and markers
- on-line access to the Guide

TIMING - 2h 00
- Definition and use of trade documents: 30 min
- Identifying simplification procedures: 1h 15 min
- Final debriefing: 15 min

METHODOLOGY

STEP 1
Definition and use of trade documents (30 min)
The trainer asks every participant to write down a definition of what a “trade document” is. After 5 min he/she asks the participants to pair up in buzz groups and compare their definitions. Buzz groups are simply small impromptu groups of two or three participants formed to discuss this topic for a short period. Some groups will be invited to present their joint definition on a flip-chart and, after this initial round, the trainer projects the definition as stated in the TF Implementation Guide and checks whether this is in line with what the participants have found, and verifies the examples of trade documents the participants have come up with. After this the trainer constructs a list of different uses of trade documents related to the different origins of the examples that were chosen by the participants.

STEP 2:
Identifying simplification procedures (1h30)
The trainer explains that the complexity of documentary and data requirements causes multiple delays and costs for traders and government alike. The Guide points out several opportunities for the simplification of document and data flows. The participants will be seated at four different tables, each table containing a written statement.

<table>
<thead>
<tr>
<th>Table 1: BPA methodology</th>
</tr>
</thead>
<tbody>
<tr>
<td>Written statement: In order to find opportunities for simplification, process analysis can help with documenting the current documentary process. Business process analysis therefore provides the basis for simplification, harmonization and standardization of data, documents, and requirements</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Table 2: Document alignment</th>
</tr>
</thead>
<tbody>
<tr>
<td>Written statement: Harmonization of data and document requirements is a useful step in reducing the complexity of cross-border trade. It leads to the aligning of documents and data, and ideally the use of existing standards, thus making cross-border exchange more efficient.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Table 3: Single Windows for Trade</th>
</tr>
</thead>
<tbody>
<tr>
<td>Written statement: One of the objectives of Single Windows for Trade is to offer a platform for the submission of trade documents and data. It aims at avoiding duplication by exchanging the data amongst its participating parties. There are therefore less contact points, and time and location independent platforms for trade data interchange.</td>
</tr>
</tbody>
</table>
Table 4: E-business solutions

Written statement: The use of ICT for the processing and handling of trade data and documents can significantly simplify the procedures. E-business solutions underpin the introduction of ICT for the exchange of trade data. Data harmonization and data models are key elements of IT solutions, such as Single Windows for Trade.

Every table is covered with a flip-chart or brown paper. Participants discuss how the different solutions contribute to the identified problems. Participants are allowed to consult the Guide. Every table appoints one moderator, one note taker and one timekeeper. The moderator encourages every participant to note down their contributions on the paper, to ask additional questions and to elaborate in-depth on the proposed solution. This round of conversation will take approximately 15 min, after which the participants move to the next table [except the moderator]. One they have arrived at the new table, the existing moderator welcomes them, briefly explains what the previous group has discussed and invites them to add new thoughts and contributions to the identified solution. After four rounds the trainer asks every moderator to come up with the key learning points for each solution. The key points should reflect a valid answer on the second and third learning objective of this particular session.

Optional: Where possible the trainer can refer to the BPA case study in Cambodia which can be retrieved here: http://tfig.unece.org/case-stories.html

SESSION 9: SINGLE WINDOWS

LEARNING OBJECTIVES
- to understand the relevance of Single Windows for trade facilitation
- to learn about key components of a Single Window implementation project and the relevant tools
- to become familiar with best practice for Single Window implementation and future developments

RELEVANT SECTIONS OF THE TF IMPLEMENTATION GUIDE
- Establishing a Single Window
  http://tfig.unece.org/contents/itinerary-02-start.html

FREQUENTLY ASKED QUESTIONS
- What to keep in mind when planning for a Single Window?
- How best to approach a Single Window Project?

TRAINING MATERIAL
- presentation
- TF Implementation Guide
- information of upcoming Single Window training
- case studies: Interagency collaboration for Single Window implementation in Thailand, A road towards paperless trade - Senegal’s experience, Single Window implementation in Mozambique, BPA in Cambodia

TIMING - 1h 30min
- Introduction presentation: 20 min
- Group discussion: 45 min
- Plenary debriefing: 25 min

METHODOLOGY

The trainer explains the itinerary covering in general items that can be retrieved from the Guide [see Single Window Presentation] (20 min). The trainer makes sure the following question is answered throughout the presentation.

1. What to keep in mind when planning for a Single Window?
After this initial opening presentation, the trainer divides the entire group into five different working groups. Each working group will focus on one of the components of a Single Window implementation project. The guiding question for each subgroup is "How to best approach a Single Window Project?"

**Group 1:**
Policy and institutional aspects

**Group 2:**
Legal and regulatory framework

**Group 3:**
Business Process Analysis

**Group 4:**
Document simplification and information exchange

**Group 5:**
ICT requirements

**PLENARY DEBRIEFING:**
Each group presents the main results of the group discussion in plenary and the trainer makes a synopsis of the learning objectives. After this, the trainer refers to some specific case studies that show aspects of the Single Window Itinerary in practice. The case studies can be retrieved from: http://tfig.unece.org/case-stories.html

- Case: Interagency collaboration for Single Window Implementation, Thailand’s experience
- Case: A road towards paperless trade, Senegal’s experience
- Case: Single Window implementation in Mozambique
- Case: BPA implementation in Cambodia

**SESSION 10: USE OF INFORMATION AND COMMUNICATION TECHNOLOGY TO FACILITATE TRADE**

**LEARNING OBJECTIVES**
- to identify areas in which ICT can provide simplification
- to discuss solutions and tools that are available to ensure an effective deployment of ICT for trade facilitation

**RELEVANT SECTIONS OF THE TF IMPLEMENTATION GUIDE**
- Use of ICT to facilitate trade
  http://tfig.unece.org/contents/itinerary-04-start.html

**FREQUENTLY ASKED QUESTIONS**
- In what areas can ICT provide solutions?
- What solutions and tools are available to ensure an effective deployment of ICT for trade facilitation?

**TRAINING MATERIAL**
- presentation
- case study: A road towards paperless trade- Senegal’s experience
- flip charts
- pencils and markers
- 8 sections with chairs

**TIMING – 2h 00**
- Introduction itinerary: 10 min
- Step 1: section exercise: 50 min
- Step 2: collective debriefing: 30 min
- Step 3: final conclusions: 30 min

**METHODOLOGY**
The trainer starts the session with the overview presentation of the ICT itinerary. After this initial introduction the trainer introduces for this session a Round Robin method for rapid and intense engagement on different ICT options that generate opportunities for simplification.
STEP 1 (50 MIN)
The trainer divides the room into 8 different sections.

- Customs automation
- Customs risk management
- Single Window system
- Shipping portals
- Port community systems
- e-Business solutions
- Business process analysis

Each corner needs to be equipped with flip chart paper, writing utensils and a semi-circle of chairs. Participants have about 10 min to spend in each section. During the first 5 min of the first round, participants are not allowed to speak. They write down their own input without discussing or reflecting with other participants. The idea is to write down why and how the proposed ICT solution would contribute to enhance trade facilitation implementation. A bell indicates to participants that they have to move to the next section. Participants add to, complement, correct, specify and exemplify what has already been written.

STEP 2 (30 MIN)
**Collective debriefing**
After five rotations the participants pull their chairs out to create one large circle, including the flip-charts with the final reflections. Allow no more than 3 min for the groups to report back. The groups report on the last poster they visited.

STEP 3 (30 MIN)
**Final discussion**
The trainer initiates a final discussion on the different tools and solutions that were presented to effectively deploy the ICT potential in trade facilitation. He or she makes sure the different challenges and opportunities are listed, and refers where possible to the different sections in the Guide that can help the participants further.

SESSION 11: RELEVANCE OF THE TF IMPLEMENTATION GUIDE AND FURTHER CAPACITY BUILDING

**LEARNING OBJECTIVES**
- to identify areas in which further capacity building on thematic areas of the Guide is needed
- to state the relevance and the added value of the TF Implementation Guide

**RELEVANT SECTIONS OF THE TF GUIDE**
- The entire TF Implementation Guide

**TRAINING MATERIAL**
- presentations of the different trade facilitation domains
- colored post-its
- pencils and markers
- flip-charts

**TIMING - 1h 30min**
- Step 1: identifying learning needs: 45 min
- Step 2: identifying strengths of the Guide: 45 min

**METHODOLOGY**

**STEP 1**
The trainer gives each participant three empty cards. Every participant has 20 min of preparation time to review the entire TF Implementation Guide on-line using the following guiding question:

*Throughout this workshop you had the possibility to explore different domains, instruments, itineraries and organizations. The workshop had the objective of orienting you in the use of the Guide and bringing you to the specific contents that are relevant for you. After this workshop, which areas would you like to learn more about in-depth?*

The trainer collects the different interest areas for further capacity development and clusters them in front of the class room.
PHASE 2
DURING THE WORKSHOP

A collective debriefing is held by the trainer to see where the existing gaps between needs and training offers can be identified.

STEP 2
After the initial round, the participants go back to the on-line Guide and get three new guiding questions:

1. According to you, what are the strengths of this on-line Guide and what makes it different?
2. What are possible suggestions for improvement?
3. How do you think you can use this Guide for your work?

The trainer collects the answers on the questions and clusters the results again in front of the classroom.

A collective debriefing is held by the trainer, who identifies what the unique position of the Guide is and summarizes ways in which it could be improved.

SESSION 12:
WRAP UP AND EVALUATION

LEARNING OBJECTIVES
- to evaluate the satisfaction of the workshop participants
- to review what has been learned so far
- to reinforce knowledge and awareness

RELEVANT SECTIONS OF THE TF IMPLEMENTATION GUIDE
- The entire TF implementation Guide

TRAINING MATERIAL
- 3 flipcharts
- 3 markers
- prize for the winning group
- evaluation questionnaire

TIMING - 1h 30
- Step 1: What did we learn? 60 min
- Step 2: Evaluation of the workshop: 15 min
- Step 3: Final closure 15 min

METHODOLOGY

STEP 1: What did we learn in the workshop?
Participants divide themselves randomly in three sub-groups. Groups review the sessions of the three days and generate a list of five challenging questions for the other groups (questions can be about anything covered during the plenary sessions). Questions must be clearly formulated and written down (e.g. on flip-charts).

The other groups are invited to answer the questions from one group; the suggesting team validates the responses and/or provides additional information.

Competition between sub-groups: the winner is the team that generates the highest number of unanswered questions.

STEP 2: Evaluation
Participants receive the trade facilitation evaluation questionnaire and take about 20 min to complete the questionnaire in silence.

STEP 3: Closure
The trainer ends the course with the most significant conclusions of the last three days and asks every participant to come up with one sentence that best describes their learning throughout the past three days.
PHASE 3
AFTER THE WORKSHOP
This training package contains an elaborate evaluation strategy on how to measure the impact of the workshop at three different levels. The evaluation strategy is an integral part of the workshop activity so that timely evaluation information is available for decision-making and to ensure that the organiser of the workshop is able to demonstrate accountability to stakeholders.

**OFFICIAL TRADE FACILITATION WORKSHOP EVALUATION INSTRUMENTS INCLUDED IN THE TRAINING PACKAGE**

**LEVEL 1:**
As a trainer you can have access to a standard questionnaire. Its objective is to assess the participants’ satisfaction in order to improve the perception of the quality of learning about the TF Implementation Guide. [see Annex 3]

**LEVEL 2:**
In a second stage you can question the participants at the end of the workshop through a series of standard questions in order to assess whether the participants have learned what they were supposed to learn. This will give us additional information on whether the learning objectives were achieved or not. [see Annex 2].

**LEVEL 3:**
Finally a short follow-up survey is included in the package to send out 6 months after the workshop. This information will provide us with more detail about the effective implementation of the lessons learned based on the Guide [see Annex 4]. To understand the picture, you will recognize the first three levels that were explained before. For each of these three levels you have instruments to measure the impact of the TF Implementation Guide workshop [cf. Annexes 2, 3 and 4]. Level 4 and level 5 require more complex instruments to measure impact and are not included in the scope of this manual. To conduct impact assessment studies on these two levels, additional separate resources and instruments are needed.

In addition to the instruments we advise for these three levels, we suggest that the trainers undertake an after-action review right after the training, together with the participants and the resource persons. Apart from the more structural feedback through the different questionnaires, the results of the after-action review can be used to adjust and optimize the workshop for the next round.

**AFTER-ACTION REVIEW**
The after-action review by the participants involved in the workshop is a structured facilitated process that can be used to debrief the workshop to analyse what happened, why it happened, and how it can be made better.

<table>
<thead>
<tr>
<th>1. What were our intended results?</th>
<th>3. What caused our results? (Why did it happen?)</th>
</tr>
</thead>
<tbody>
<tr>
<td>2. What were our actual results? (What really happened?)</td>
<td>4. What will we retain? Improve? (What can we do better next time?)</td>
</tr>
</tbody>
</table>

These four steps need to be completed in small groups. In the first step, you review the learning objectives of the workshop. In the second step, you discuss what you have achieved throughout the entire workshop. In the third step, you analyse the achieved results in more depth and look for causes of the achieved successes and failures. In the last and fourth step, you see what you could do better and improve and decide on what needs remain.

1. Hold the AAR immediately after the workshop. AARs are carried out immediately while all the participants are still available, and their memories are fresh.
2. Create the right climate. The ideal climate for an AAR to be successful is one of openness and commitment to learning. Everyone should participate in an atmosphere free from the concept of seniority or rank. AARs are learning events rather than critiques.
3. Ask “what was supposed to happen?” The facilitator should start by dividing the event into discrete activities, each of which had [or should have had] an identifiable objective and plan of action. The discussion begins with the first activity: “What was supposed to happen?”
4. Ask “what actually happened?” This means the team must understand and agree facts about what happened. Remember, though, that the aim is to identify a problem not a culprit.
5. Now compare the plan with reality. The real learning begins as the team or teams compare the plan to what actually happened in reality and determines “Why were there differences?” and “What did we learn?” Identify and discuss successes and shortfalls. Put in place action plans to retain the successes and to improve upon the shortfalls.
6. Record the key points. Recording the key elements of an AAR clarifies what happened and compares it to what was supposed to happen. It facilitates sharing of learning experiences within the organizing team and provides the basis for further improvement of the workshop.

Annex 1: Pre-training survey. Learning needs analysis
**PRE-TRAINING SURVEY:**
**LEARNING NEEDS ANALYSIS**

1. **INTRODUCTION**

Dear participant,
We invite you to fill in this pre-training survey in relation to the upcoming Trade facilitation implementation Guide workshop. This information will allow us to adapt the workshop better to your learning needs and expectations.

2. **RESPONDENT’S DETAILS**

1. **SEX:**
   - Female
   - Male

2. **AGE:**
   - Less than 30
   - 30-39
   - 40-49
   - 50-59
   - More than 60

3. **COUNTRY YOU WORK IN:**
   -------------------------------------------------------------

4. **TYPE OF INSTITUTION YOU WORK FOR:**
   - Workers’ organization
   - Employers’ organization
   - Government/public administration
   - Non-governmental organization
   - Private enterprise
   - International organization
   - Other {please specify}

5. **YOUR CURRENT POSITION:**
   - Job title: ...............................................  
   - Main responsibilities: ................................  
   - Main field of work: ...................................  

6. **YOUR WORKING EXPERIENCE IN “TRADE FACILITATION IMPLEMENTATION”:**
   - More than 5 years
   - 2-5 years
   - 1-2 years
   - Less than 1 year
   - No experience

7. **IF YOU HAVE WORKING EXPERIENCE, PLEASE BRIEFLY DESCRIBE IT:**
   ........................................................................
   ........................................................................
   ........................................................................

8. **AS A PARTICIPANT, HOW CAN YOU CONTRIBUTE TO THIS COURSE TO MAKE IT AN ENRICHING EXPERIENCE FOR ALL? PLEASE BE SPECIFIC.**
   ........................................................................
   ........................................................................
   ........................................................................

9. **HAVE YOU PARTICIPATED IN OTHER TRAINING INITIATIVES ON “TRADE FACILITATION IMPLEMENTATION” IN THE LAST FIVE YEARS?**
   - Yes
   - No

10. **IF SO, PLEASE BRIEFLY DESCRIBE THEM (TITLE, YEAR, TRAINING ORGANIZATION, ETC.)**
    ........................................................................
    ........................................................................
    ........................................................................

11. **DOES YOUR JOB REQUIRE YOU TO TRAIN OTHER PEOPLE?**
   - Yes, very often
   - Yes, sometimes
   - Yes, but very rarely
   - No
3. PREFERENCES CONCERNING MODALITY AND TIMING

1. What is the maximum time you are ready to devote to a face-to-face course?
   - 1 to 3 days
   - Up to 1 week
   - Up to 2 weeks
   - More than 2 weeks

2. Please indicate your preference for the timing of the courses:
   - January March
   - April June
   - July September
   - October December

4 LEARNING EXPECTATIONS

1. What are your main expectations from this course?

2. Please indicate three learning objectives that you would like to achieve through this course
   1.
   2.
   3.

3. Please indicate three skills that you expect to acquire through this course
   1.
   2.
   3.

4. How do you intend to use the knowledge and skills acquired from the course in your current job?

5. Are you participating in this course on your own initiative or by the decision of your organization?
   - On my own initiative
   - By decision of my organization

6. What are the main expectations of your organization from your participation in the course?
## Pre- And Post-Self-Evaluation

### Introduction to the Trade Facilitation Implementation Guide

Venue: ..................................................
Dates: ..................................................

**Entry Self-Evaluation**

UNECE will evaluate the effectiveness of the training activity that you are attending. To help us, we ask you kindly to complete this self-evaluation form. As well as this form, we will ask you to complete another one at the end of the training.

Your answers to all questions are anonymous. However, so that we can group your evaluation forms together while maintaining your anonymity, we would like you to create a code and use it on every form.

To create your own personal, confidential evaluation code, please write the following:

The first letter of the town where you were born: ...........
The first letter of your mother’s first name: ...............
The year that you were born: ............................

For example, a participant born in Lusaka to a mother named Vivien in 1960, would have the code L-V-1960.

The items on the next sheet cover the main contents of the upcoming training sessions. For each item, you will find a short question and a scale on which you can indicate your level of knowledge about specific topics. Please take your time to answer each question and then, on the scales that follow, use an X to indicate what, in your opinion, is your level of knowledge about the specific topic.

If you don’t know the answer to a question, please leave it blank. The purpose of this questionnaire is not to test you, but to evaluate our effectiveness in providing you with quality training.

### 1. Trade Facilitation Implementation

1. What is your general knowledge about Trade Facilitation Implementation?

<table>
<thead>
<tr>
<th>About the topic on the left, I consider my knowledge…</th>
</tr>
</thead>
<tbody>
<tr>
<td>General knowledge about trade facilitation implementation</td>
</tr>
<tr>
<td>Insert specific content/topics</td>
</tr>

FINAL SELF-EVALUATION

Please write in the box below the code that you had written on your first questionnaire:

The first letter of the town where you were born: ______
The first letter of your mother’s first name: ______
The year that you were born: ______

For example, a participant born in Lusaka to a mother named Vivien in 1960, would have the code L-V-1960.

The items on the next sheet cover the main contents of this workshop. For each item, you will find a short question and a scale on which you can indicate your level of knowledge about specific topics. Please take your time to answer each question and then, on the scales that follow, use an X to indicate what, in your opinion, is your level of knowledge about the specific topic.

If you don’t know the answer to a question, please leave it blank. The purpose of this questionnaire is not to test you, but to evaluate our effectiveness in providing you with quality training.

1. Trade Facilitation Implementation

1. What is your general knowledge about Trade Facilitation Implementation?

About the topics on the left, I consider my knowledge...

General knowledge about trade facilitation implementation: poor, weak □ □ □ □ □ □ □ high, strong
Insert specific content/topics: poor, weak □ □ □ □ □ □ □ high, strong

2. Trade Facilitation instruments

1. What level do you consider is your knowledge about trade facilitation instruments?

About the instruments on the left, I consider my knowledge...

Insert specific instruments: poor, weak □ □ □ □ □ □ □ high, strong

Evaluation questionnaire

Instructions

Please complete the questionnaire below. This will help us to improve the workshop. Please be totally frank, as we are interested in your opinion, whether it is positive or negative, and we shall take it into account in planning future workshops.

This questionnaire is anonymous. To help us analyse the evaluation results, we have added a space for you to indicate your gender and the type of organization you work for. If you prefer not to provide such details, simply leave the space blank.

Please give each aspect of the course set out below a mark from 1 to 5, with 1 being the minimum and 5 the maximum. On this scale, the average mark is 3.

If you think that a question does not apply to you, or that you do not have the information needed to answer it, check the "no opinion" option.

You can give only one answer to each question.

Please indicate:

Sex
☐ Female   ☐ Male

Type of organization
(Please indicate only one response. If you are involved in more than one type of organization, please select the one you are representing during this activity.)

☐ Government/public institution   ☐ Intergovernmental organization
☐ Non-governmental organization   ☐ Private enterprise
☐ Training/academic institution   ☐ UN organization
☐ Trade Union organization       ☐ Employer organization
☐ Ministries of Labour            ☐ Other
☐ Currently unemployed
## I - INFORMATION RECEIVED BEFORE THE ACTIVITY

SPECIFIC TF Implementation Guide-related questions:

1. **What is your feedback on the usefulness of the TF Implementation Guide?**

2. **Specific expectations for additional support in the follow up phase:**

Thank you for filling in this questionnaire!
FOLLOW-UP SURVEY

TF Implementation Guide Workshop Follow-up Questionnaire

This questionnaire has been designed to collect information about the impact of the TF Implementation Guide Workshop and to monitor your efforts in using the TF Implementation Guide in your organization.

The questionnaire looks at the ways in which you have applied what you learned to your job, the action you and/or your institution have taken to apply what was learned, and the constraints and the opportunities you faced in doing so.

To provide responses, you will need to reflect on the workshop activity and think about specific ways in which you have applied what you learned from it. In order to do that properly, it may be helpful for you to review the workshop programme and materials provided during the activity, together with any action plan that you drew up.

Please be as candid as possible in your answers.

Thank you very much in advance for taking the time to complete this questionnaire!

RESPONDENT'S INFORMATION

Please give the following information:

1. Name and surname (as given in your passport):

2. SEX:
   □ Female
   □ Male

3. COUNTRY you work in:

4. Type of organization:

   Please select the type of organization you represented during the training activity
   □ Trade union organization       □ Private enterprise
   □ Ministry of Labour            □ Training/academic institution
   □ Employer organization        □ International Labour Organization
   □ Government/public institution □ Other UN organization
   □ Intergovernmental organization □ Currently unemployed
   □ Non-governmental organization

   Other (please specify)  ..........................................................................................................................
APPLICATION OF LEARNING

5. To what extent did your competencies improve as a result of your participation in the training activity?
   - No improvement
   - Slight improvement
   - Moderate improvement
   - Large improvement
   - Very large improvement

6. Please select the competencies that you have improved the most as a result of your participation in the training activity:
   - Analysing
   - Synthesizing data and concepts
   - Making decisions
   - Identifying problems and providing solutions
   - Researching
   - Counselling
   - Training others
   - Communicating
   - Establishing interpersonal relationships
   - Networking
   - Management
   - Persuading and leading
   - Negotiating
   - Planning and organizing projects and/or people
   - Observing, assessing and evaluating things and/or people
   - Other (please specify): ..................................

7. To what extent did your job performance improve as a result of your participation in the training activity?
   - No improvement
   - Slightly improvement
   - Moderate improvement
   - Large improvement
   - Very large improvement

8. Since the training activity, have you made use of:
   The training materials and documents distributed during the activity? 1 Never… 5 always
   The networking opportunities you had during the activity?

9. Which activities have you engaged in as a result of your participation in the training activity?
   Please provide concrete examples:
   ..................................................................................
   ..................................................................................

10. What are the main factors, if any, that have contributed to the concrete use of the competencies you acquired?
    - The general situation in my country
    - The priorities within my organization
    - Availability of financial resources
    - Availability of human resources
    - Support from my supervisors
    - Support from my colleagues
    - I had enough authority to influence consideration of ideas and their application
    - No particular factor
    - Other (Please specify): ..................................

11. What are the main constraints, if any, that you have faced in using the competencies acquired during the training activity?
    - I have NOT faced any constraints
    - The general situation in my country
    - The priorities within my organization
    - Lack of financial resources
    - Lack of human resources
    - Lack of support from my supervisors
    - Lack of support from my colleagues
    - I had enough authority to influence the application of new ideas
    - The course content proved irrelevant
    - Other (Please specify): ..................................

ORGANIZATIONAL IMPACT

12. To what extent has the performance of your organization improved as a result of your participation in the training activity?
    - No improvement
    - Slight improvement
    - Moderate improvement
    - Large improvement
    - Very large improvement
List up to three changes that have occurred within your organization as a result of your participation in the training activity:

..................................................................................................................
..................................................................................................................
..................................................................................................................

13. How large was the impact outside your organization due to the training?

☐ Very small  ☐ Medium  ☐ Very large

Comments: ...................................................................................................
..................................................................................................................
..................................................................................................................

14. In which of the following areas did you detect a significant impact of the training?

☐ Establishment of new and more relevant initiatives, projects and programmes
☐ Networking
☐ Training
☐ Capacity building
☐ Human resources management
☐ Economic management
☐ Organization and processes
☐ Overall performance
☐ I have not detected a significant impact of the training

Other (Please specify): .................................................................
..................................................................................................................
..................................................................................................................

15. With hindsight, to what extent was your participation in the workshop activity a good investment?

☐ Not at all  ☐ Partly  ☐ Moderate  ☐ Mostly  ☐ Completely

..................................................................................................................
..................................................................................................................
..................................................................................................................

16. What recommendations would you make for improving the workshop activity?

..................................................................................................................
..................................................................................................................
..................................................................................................................

17. If you wish to add any further comments, please use this space:
..................................................................................................................
..................................................................................................................
